Week 3

Class Activity 3

Group Activity: Can You Spot the Exposed Secret?

Below are four text samples.
Rank them from 1 (Highest Exposure Risk) to 4 (Lowest Exposure Risk) based on how likely the model has memorised sensitive data.

Text Sample	Your Rank (1–4) Why?
“The cat sat on the mat.”	
“Your One Time Password (OTP) is 583920.”	
“The social security number is 0120-00-5857.”	
“Thank you for using our service.”	

Hint: Think about which text looks most unique or identifiable. The more specific it is, the higher its exposure risk!
